**Temecula, Calif.** – On December 7, 2022, the Rancho California Water District (Rancho Water/District) Board of Directors unanimously elected John Rossi as President and Brian Brady as Senior Vice President for a one-year term beginning in January 2023.

President Rossi has served on the Rancho Water Board of Directors since 2019, and as the Senior Vice President of the Board during 2022. Director Rossi currently serves on the Santa Rosa Regional Resources Authority Board, is a member of the Association of California Water Agencies (ACWA) Federal Affairs Committee, and in 2019 was appointed to the Urban Water Institute Board of Directors. Mr. Rossi has been a Temecula resident since 1993 and has over 29 years in the water industry, including serving as the General Manager at Western Municipal Water District for 13 years.

“President Carol Lee Gonzales-Brady will be a hard act to follow but I look forward to serving the Board as President for 2023,” said President Rossi. “Rancho Water has an exciting year ahead with water reliability projects on the horizon and emerging issues facing us from the State Water Project and Colorado River. I look forward to leading Rancho Water in these discussions and representing the District.”

Senior Vice President Brady was elected to Rancho Water’s Board in November 2020. Director Brady is the Chairman of the Finance and Audit Committee and serves on the Planning and Administration Committee. Additionally, Mr. Brady represents Rancho Water by serving as the first alternate agency representative for the California Association of Sanitation Agencies. He served as General Manager of the Fallbrook Public Utility District and has over 40 years of

engineering and executive management experience in both the public and private sectors of western electric and water utilities.

“I am honored to take on the role of Senior Vice President for Rancho Water,” stated Senior Vice President Brady. “It will be a pleasure to support President Rossi and the rest of the Board as we continue the important mission of delivering high-quality, reliable water to our customers.”
